15 Bronzers That Are Just as Good as a Beach Getaway

BY KARA NESVIG | MAY 29, 2017

There's no safe way to get a little sun without damaging your skin, which is why bronzer has become a VIP in our makeup bags — especially when our skin is just emerging from our winter hibernation caves, bleary-eyed and pale as hell. It can do anything, from contouring your face into a work of art to fooling your coworkers into thinking you've spent a week at the beach when really you were just taking a staycation with Netflix. These 15 new bronzers will give you the ultimate glow all year long, no Mr. Golden Sun required.

Nudestix Nudies All Over Face Color Bronze + Glow

We love NUDESTIX subtle, sophisticated neutral shades, and their All Over Face Color bronzers and highlighters are no exception. The Bronze + Glow line comes in three colors: pearly pale pink, champagne gold, and a honey bronze. You can wear them solo or layer them for a look that's all your own, and they're easy to toss in your bag for reapplication before happy hour.

(\$30, Sephora.com)
